ABOUT

Currently in my fourth year of pursuing a degree in Computer Engineering in Antalya Bilim University. Throughout my academic journey in this captivating field, I have developed a comprehensive understanding of both the hardware and software facets of computing. I have refined my programming abilities in languages such as C++/C, Java, and Python, Javascript and also acquired practical knowledge in areas like digital circuit design and embedded systems. Outside of the school, I experienced with React, Javascript, Python and Mysql in my internship. Right now, I be occupied in doing few project on my on.

SKILLS

- Javascript
- Node.js
- Express.js
- React.js
- MySQL
- Django
- Python
- HTML
- Java
- C and C++

WORK EXPERIENCE

APRA Engineering and Managment Consultancy - Internship

June 2022 to July 2022

- I officially worked for 1 month during my internship period. After that, I volunteered for approximately 2 months. During this time, I worked on web development using technologies such as Node.js, MySQL, and React for frontend and backend development. Additionally, I worked on projects involving data transfer and storage from external devices like Raspberry Pi, as well as their representation on the web. I also participated in projects related to artificial intelligence. Throughout these projects, I predominantly used JavaScript and Python programming languages.

EDUCATION HISTORY

Antalya Bilim University

Bachelor's degree, Computer Engineering
2019-2024

- *Grade: 3.80*

CERTIFICATIONS

CS50's Web Programming with Python and JavaScript

Harvard Online

Issued Aug 2023
